

MOTHERS DAY CRAFT

MATERIALS

Construction paper

Washable paint

Paint brushes

Scissors

Glue

INSTRUCTIONS

- Paint child's hand green, make a hand print in the center of the construction paper
 - Set out a couple blobs of different colours on a small paint palette or plate. Start with the centers of the flowers and make a fingerprint at the tip of each green finger.
 - Make flower petals around the centers. Set aside to dry
- While the art is drying, cut out a flower pot shape from paper and write the following poem on it:

I've made some May flowers
With my finger and thumb
So you'll have these
Memories
For all the years
to come!

- *Glue the pot in place underneath the palm of the green hand print.*
- *Write Happy Mother's Day! on it as well as name/age/date.*
- *Hide it away and give to mom (or a special person) on Sunday for Mother's Day!*

If you do not have paint available, just trace their handprint and have your child colour it in and colour flowers on the fingertips.
